Getting Started

Creating an Account

- 1) Click **Sign Up** in the top right corner of the screen.

NutriAI

Adaptive AI Nutritionist

A behavior-based AI system that dynamically adapts nutrition plans based on energy, diet, habits, and predictive health modeling.

- 2) Enter your name, email, and password, then click **Sign Up**.

The image shows the NutriAI website header and a sign-up form. The header is identical to the one in the previous image, featuring the NutriAI logo and "Login", "Sign Up", and settings buttons. Below the header is a sign-up form. The form has a title "Sign Up" and a subtitle "Make an account today to start using NutriAI". There is a "Login" link in the top right corner of the form. The form contains four input fields: "Name" (with the placeholder text "John Doe"), "Email" (with the placeholder text "user@nutriai.com"), "Password", and "Confirm Password". At the bottom of the form is a dark blue "Sign Up" button.

- 3) Complete the setup form by filling out your basic information and following the setup prompts.

Navigation

Sidebar

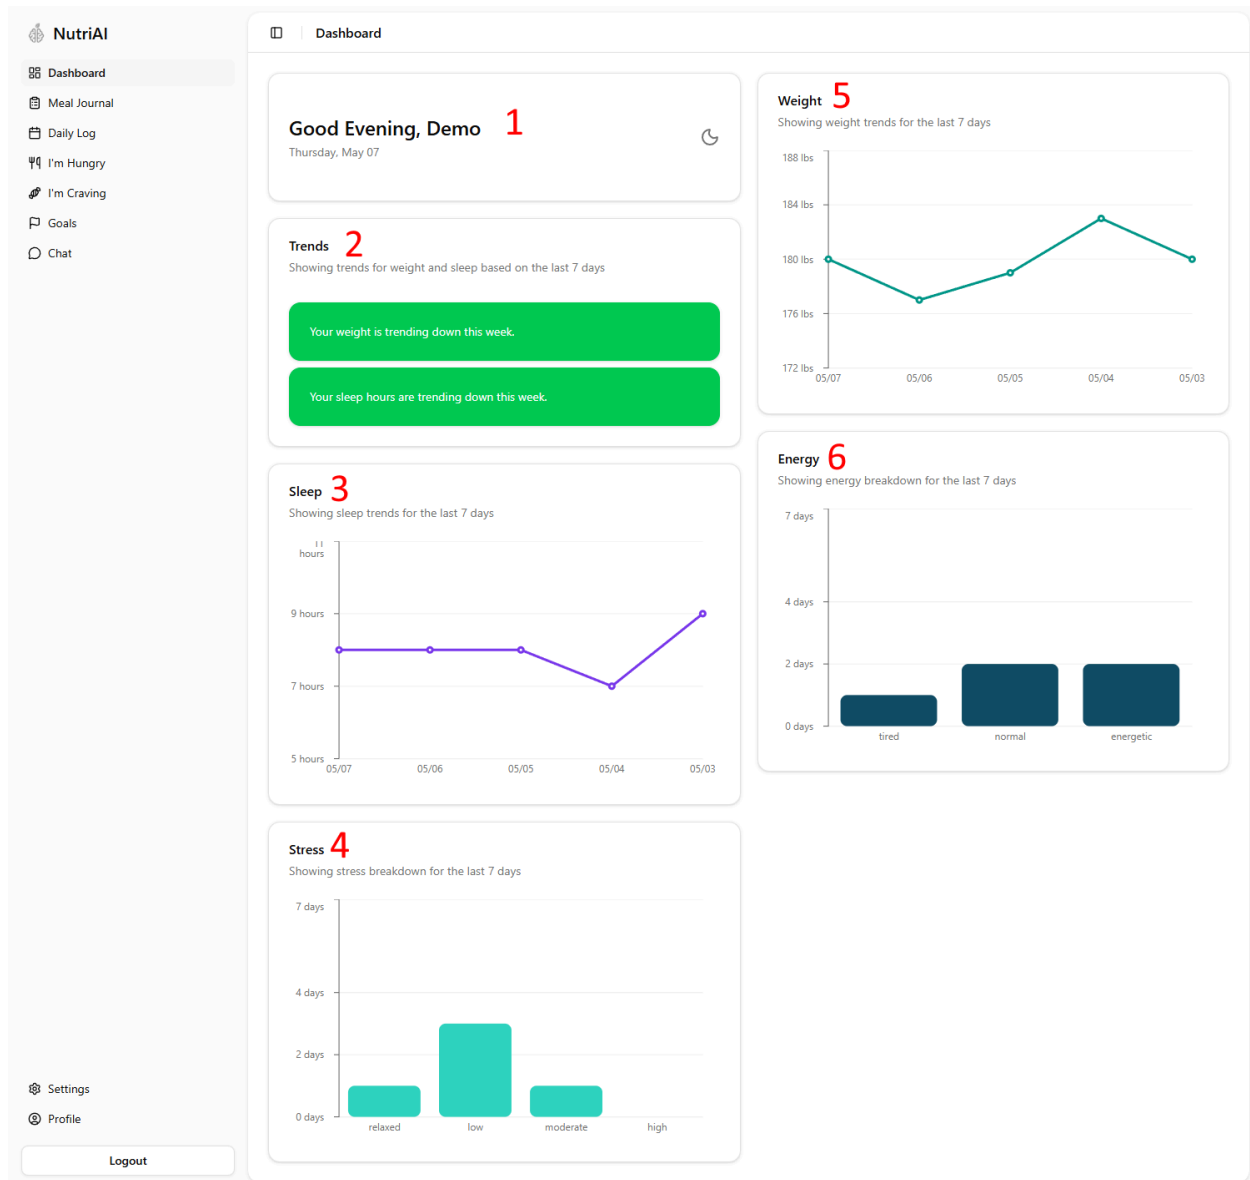

The Navigation Sidebar provides quick access to all major sections of the NutriAI application. The sidebar is displayed throughout the application and allows you to easily navigate between pages and wellness tools.

- 1) **Dashboard** - The Dashboard provides an overview of your recent activity, health trends, and nutrition progress.

- 2) **Meal Journal** - The Meal Journal allows you to search for foods and recipes, log meals, and track your daily nutritional intake.
- 3) **Daily Log** - The Daily Log provides a detailed overview of your daily activity, including check-ins, hunger events, craving events, nutrition summaries, and meal history.
- 4) **I'm Hungry** - The I'm Hungry page allows you to log hunger events and receive food or meal recommendations based on your nutrition goals and current intake.
- 5) **I'm Craving** - The I'm Craving page allows you to log cravings and receive personalized meal or food recommendations that align with your wellness goals.
- 6) **Goals** - The Goals page allows you to configure and manage your wellness and nutrition objectives.
- 7) **Chat** - The Chat page allows you to interact directly with NutriAI through a chat-like interface.
- 8) **Settings** - The Settings page allows you to manage your notification settings.
- 9) **Profile** - The Profile page allows you to manage your personal health information, lifestyle details, and wellness profile settings.
- 10) **Logout** - The Logout button securely signs you out NutriAI

Dashboard

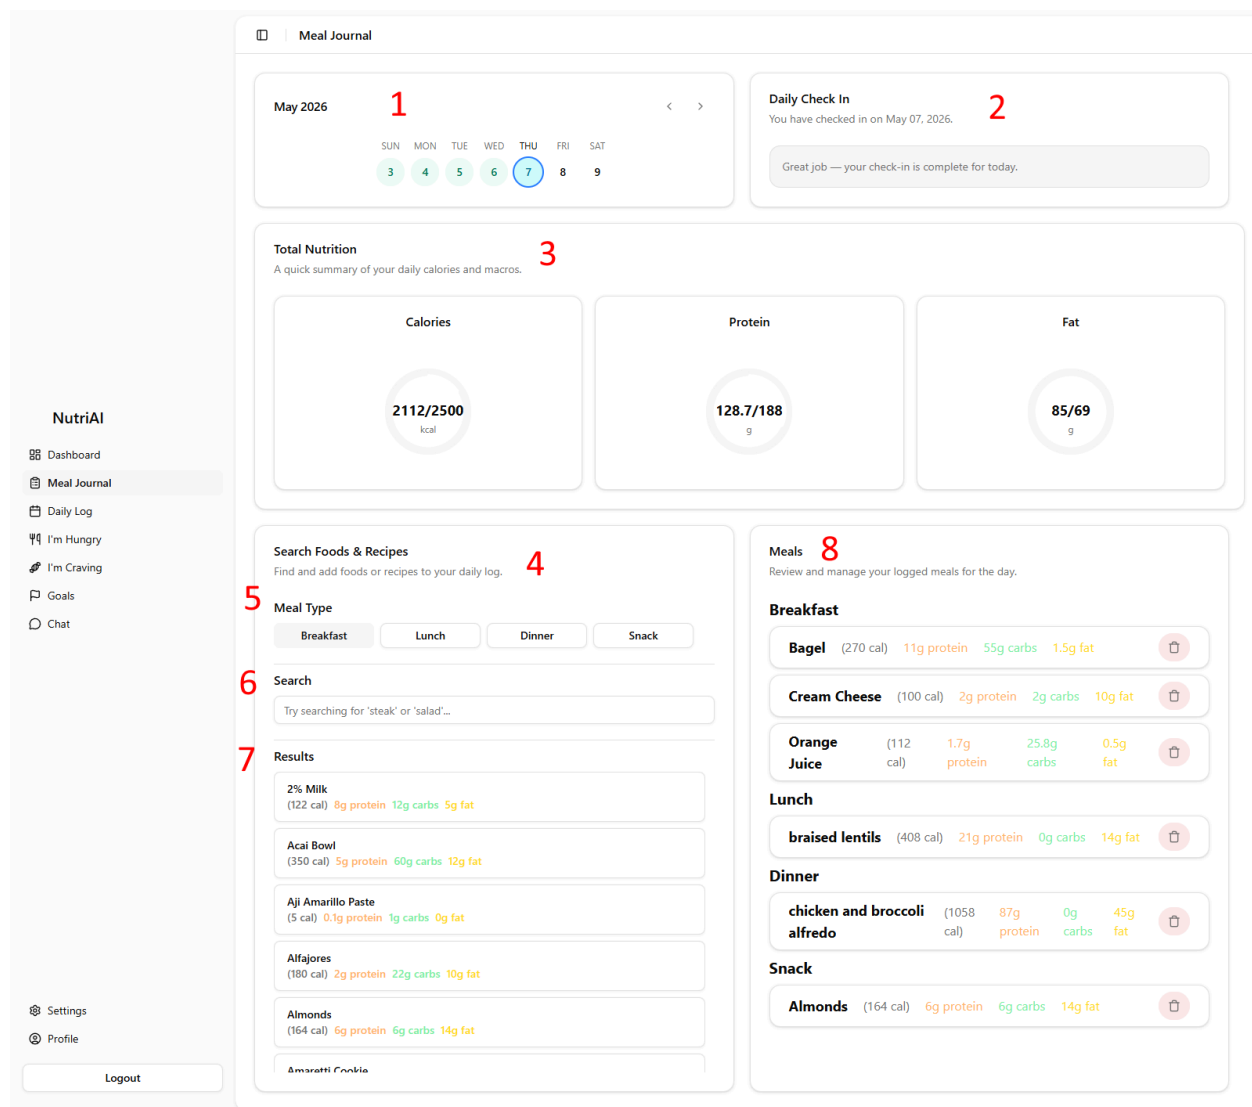

The Dashboard provides a centralized overview of your recent wellness activity and health trends within NutriAI. This page is designed to help you quickly monitor your progress, review wellness patterns, and identify changes in your daily habits over time.

- 1) **Greeting Card** - The Greeting Card displays a simple greeting based on the time of day along with the current date
- 2) **Trends Card** - The Trends Card provides a quick summary of your recent wellness trends based on your logged data from the past 7 days

- 3) **Sleep Graph** - The Sleep Graph shows your recorded sleep hours over the last 7 days
- 4) **Stress Graph** - The Stress graph displays a breakdown of your recorded stress levels over the last 7 days.
- 5) **Weight Graph** - The Weight graph displays your recorded weight trends over the last 7 days.
- 6) **Energy Graph** - The Energy graph displays a breakdown of your recorded energy levels over the last 7 days.

Meal Journal

The Meal Journal page allows you to track your daily food intake, manage meals, and monitor nutritional progress throughout the day.

- 1) **Day Selector** - The Day Selector allows you to navigate between different dates and manage nutrition logs for a specific day. You can switch between days to review previous entries or log meals for the current date.
- 2) **Check-In Card** - The Daily Check In card displays your check in status for the selected date. Daily check-ins are required before any meal logging can begin and are used to record important health information such as, morning weight, sleep, energy, and stress.
- 3) **Total Nutrition Card** - The Total Nutrition Card provides a summary of your nutritional intake for the selected day. This section displays progress toward daily nutrition goals, such as calories, protein, and fat
- 4) **Food & Recipe Lookup Card** - The Food & Recipe Lookup card allows you to search for food and recipes to add to their meal log.
- 5) **Meal Type Selector** - The Meal Type Selector determines which category the selected food or recipe will be added to.
- 6) **Search Bar** - The Search Bar allows you to search for foods or recipes by name.
- 7) **Search Results** - The Search Results section displays foods and recipes that match your search query
- 8) **Meal Log** - The Meal Log displays all foods and recipes logged for the selected day. Entries are grouped by meal category, allowing you to review your daily meals.

The Daily Log page provides a detailed overview of your daily activity, nutrition progress, hunger and craving events, and logged meals. This page is designed to help you monitor your daily habits and better understand your eating patterns throughout the day.

- 1) **Quick Actions Card** - The Quick Actions card provides shortcuts to commonly used actions within NutriAI. With this card you can quickly
 - a) Log a craving event
 - b) Log a hunger event
 - c) Complete your daily check-in
- 2) **Check-In Card** -The Daily Check In card displays your check in status for the selected date. Daily check-ins are required before any meal logging can begin and are used to record important health information such as, morning weight, sleep, energy, and stress.
- 3) **Day Selector** - The Day Selector allows you to navigate between different dates and manage nutrition logs for a specific day, You can switch between days to review previous entries or log meals for the current date.
- 4) **Check-In Summary** - The Check-In Summary card provides a quick overview of the information submitted during your daily check-in. This section displays your recorded wellness metric for the selected day
- 5) **Hunger Events** - The Hunger Events section displays all hunger events you have logged for the selected day. Hunger events help track moments when you have felt hungry and provide recommendations based on your nutrition goals. Each hunger event includes:
 - a) The date and time you logged the event
 - b) Your hunger level
 - c) Suggested food recommendations
 - d) Quick actions to add recommended foods or delete the event
- 6) **Craving Events** - The Craving Events section displays all craving events you have logged for the selected day. Craving events help track specific food cravings and provide meal recommendations that align with your nutrition goals. Each craving event includes:
 - a) The date and time you logged the event
 - b) Your craving prompt
 - c) Suggested food recommendations
 - d) Quick actions to add recommended foods or delete the event

- 7) **Event Quick Actions** - All events include quick actions that allow you to add recommended foods or recipes to your Meal Log.
- 8) **Total Nutrition Card** - The Total Nutrition Card provides a summary of your nutritional intake for the selected day. This section displays progress toward daily nutrition goals, such as calories, protein, and fat
- 9) **Diet Analysis** - The Diet Analysis card provides a breakdown of how your current nutrition intake compares to your daily nutrition targets.
- 10) **Meal Log** - The Meal Log displays all foods and recipes logged for the selected day. Entries are grouped by meal category, allowing you to review your daily meals.

Goals

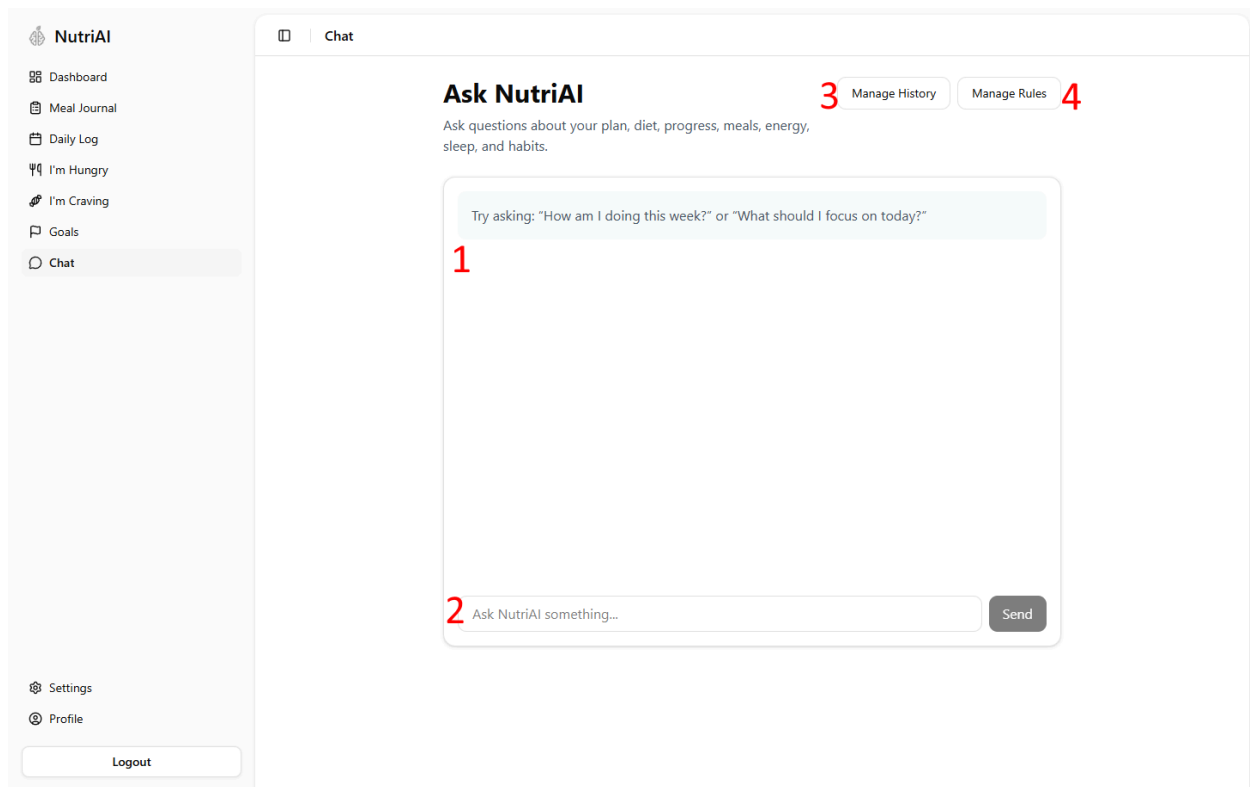

The screenshot shows the 'Goals' page in the NutriAI application. The left sidebar contains navigation links: Dashboard, Meal Journal, Daily Log, I'm Hungry, I'm Craving, Goals (highlighted), Chat, Settings, Profile, and a Logout button. The main content area is titled 'Goals' and contains a 'Set Your Goal' section. This section includes a dropdown menu for 'Choose your goal' (labeled 1) with 'Maintain Weight' selected. Below this are two input fields: 'Target Weight' (labeled 2) with the placeholder 'Enter target weight (lbs)' and 'Timeline' (labeled 3) with a dropdown menu showing 'Select timeline'. Underneath these is a 'Your Current Stats' (labeled 4) section displaying: Weight: 180 lbs, Height: 80 inches, and Your BMI: 19.8. Below that is a 'Your Goal Summary' (labeled 5) section displaying: Goal: Maintain Weight, Focus: Balanced Intake, and BMI: 19.8. At the bottom of the form is a 'Save Goal' button.

The Goals page allows you to configure your personal wellness and nutrition goals within NutriAI. Your selected goal helps guide the recommendations, meal suggestions, and nutrition analysis provided throughout the application.

- 1) **Goal Selection** - The Goal Selection allows you to choose your primary wellness objective. Your selected goal is used by NutriAI to personalize recommendations and nutrition guidance.

- 2) **Target Weight** - The Target Weight section allows you to enter your desired target weight.
- 3) **Timeline Selection** - The Timeline section allows you to choose the timeframe for reaching your target goal.
- 4) **Current Stats** - The Current Stats displays your current body measurements and health information based on your profile data.
- 5) **Goal Summary** - The Goal Summary section provides a quick overview of your currently selected goal and wellness focus.

Chat

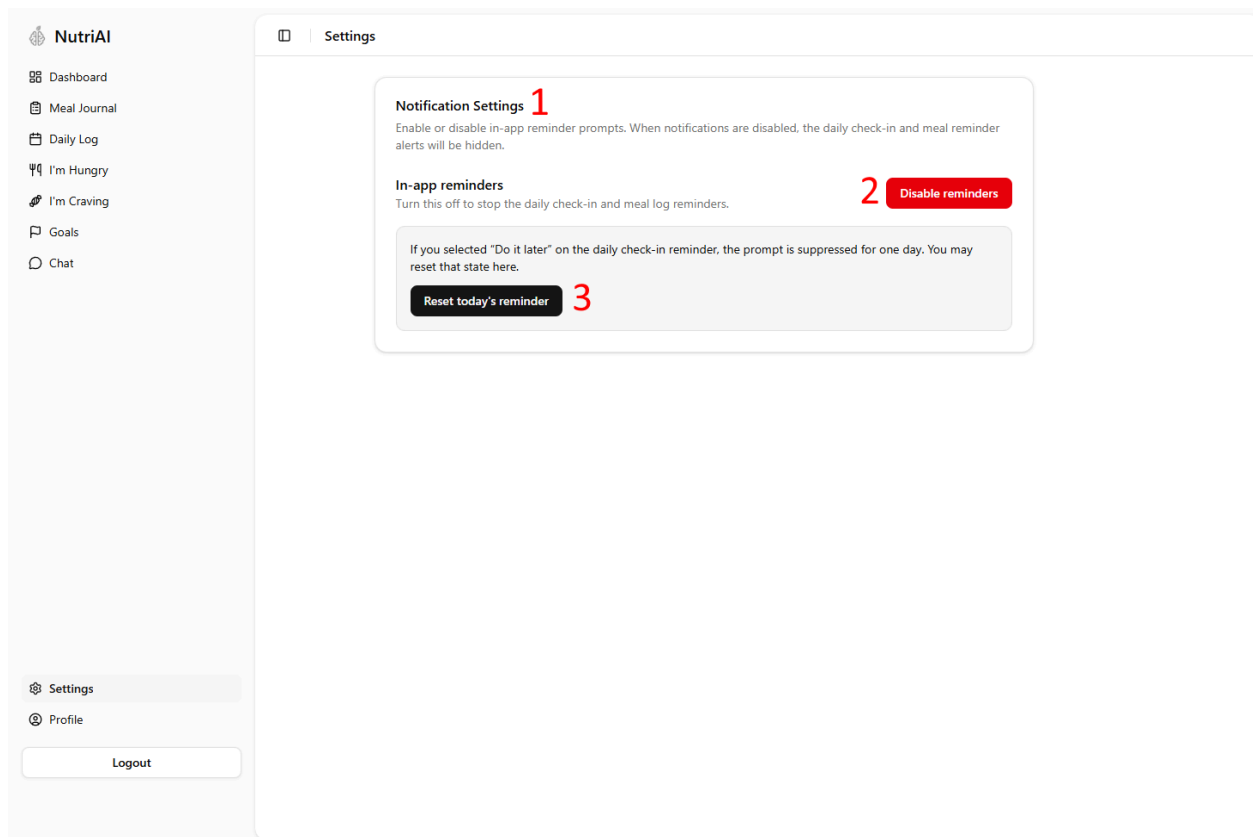

The Chat Page allows you to interact directly with NutriAI using a chat style interface. You can ask questions related to your nutrition plan, meals, wellness, process, etc.

- 1) **Chat History** - The Chat History displays your active conversation with NutriAI
- 2) **Message Input** - The Message Input allows you to enter questions or prompts for NutriAI. After entering your message, click Send to submit your question. You may ask questions about topics such as:

- a) Nutrition goals
 - b) Meal recommendations
 - c) Energy levels
 - d) Sleep habits
- 3) **Manage History** - The Manage History button allows you to manage your previous chat conversations.
- 4) **Manage Rules** - The Manage Rules button allows you to manage personalized chat preferences.

Settings

The Settings page allows you to manage notification and reminder preferences within NutriAI. These settings control how in-app reminders and prompts are displayed throughout the application.

- 1) **Notification Settings** - The Notification Settings section allows you to configure how NutriAI displays in-app reminders and wellness prompts.
- 2) **Reminder Toggle** - The Reminder Toggle allows you to enable or disable in-app reminders. When Reminders are disabled, daily check-in

reminders will no longer appear and meal reminder prompts will be hidden

- 3) **Reset Reminder State** - The Reset Reminder State action allows you to restore reminder prompts that were previously dismissed.
 - a) For example, if you selected a “Do it later” option on a reminder, NutriAI may temporarily suppress that notification for the remainder of the day. Using this option resets that state and allows reminders to appear again.

Profile

The screenshot displays the NutriAI Profile page. On the left is a sidebar with navigation links: Dashboard, Meal Journal, Daily Log, I'm Hungry, I'm Craving, Goals, Chat, Settings, Profile (selected), and Logout. The main content area is titled 'Profile' and contains several sections:

- Profile Information 1:** A form with fields for Name (Demo), Date of Birth (4/3/1963), Height (80 inches), Weight (180 lbs), Occupation (Engineer), Fitness Level (Moderate), Hobbies (Walking, Gaming), Average Calorie Intake (1500-2000 Calories), Current Energy Level (High Energy), Gender (Male), Average Hours of Sleep (5-7 hours), Diet Restrictions (Eggs, Vegetarian), and Medical History (Diabetes, Heart Disease). An 'Update Profile' button is at the bottom.
- BMI 2:** A card showing BMI 19.8, Normal Weight, and a note that it is auto-calculated from height and weight.
- Energy Meter 3:** A card showing a 65% energy score with a green progress bar and a note that it is based on sleep, current energy, and fitness level.
- Your Goal Summary 4:** A card showing the goal (Maintain Weight), focus (Balanced Intake), and BMI (19.8). An 'Edit Goal' button is at the bottom.

The Profile page allows you to manage your personal health and lifestyle information within NutriAI. The information entered on this page is used to personalize nutrition recommendations, wellness insights, energy analysis, and goal planning throughout the application.

- 1) **Profile Information** - The Profile Information section allows you to enter and update your personal wellness and lifestyle details. This information helps NutriAI generate more accurate recommendations and health insights.

- 2) **BMI Summary** - The BMI Summary section displays your calculated Body Mass Index (BMI) based on your height and weight information.
- 3) **Energy Meter** - The Energy Meter provides an estimated overview of your current wellness and energy state based on your profile information.
- 4) **Goal Summary** - The Goal Summary section displays information related to your currently selected wellness goal.

Guide

General

Navigating Home

- 1) If you are currently on the dashboard, open the sidebar and click the **NutriAI logo** located at the top of the sidebar.
- 2) If you are currently on the Login or Sign Up page, click the **NutriAI logo** located in the top-left corner of the screen.

Navigating to Dashboard

- 1) Click the **Dashboard** button located in the top-right corner of the screen.
- 2) If you are not currently signed in, you will need to sign in or create an account before accessing the dashboard.

Logging Out

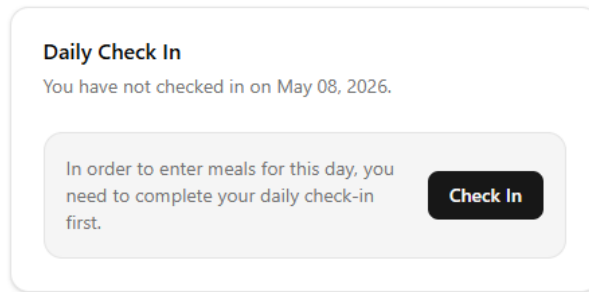

- 1) If you are on the Home page, click the **Logout** button located in the top-right corner of the screen.
- 2) If you are on the dashboard, open the sidebar if it is not already open, then click the **Logout** button located at the bottom of the sidebar.

Daily Log

Checking In

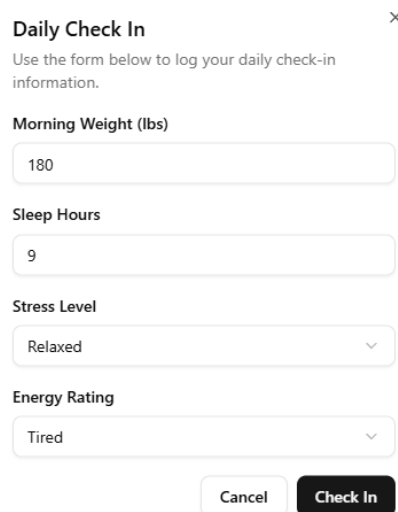

- 1) Navigate to either the Meal Journal page or the Daily Log page.

- 2) Locate the **Daily Check In** card.

The image shows a 'Daily Check In' card. At the top, it says 'Daily Check In' in bold, followed by 'You have not checked in on May 08, 2026.' Below this, a message states: 'In order to enter meals for this day, you need to complete your daily check-in first.' To the right of this message is a black button with the text 'Check In' in white.

- 3) Click **Check In**.
- 4) Enter your morning weight, sleep hours, stress level, and energy rating in the check-in form.

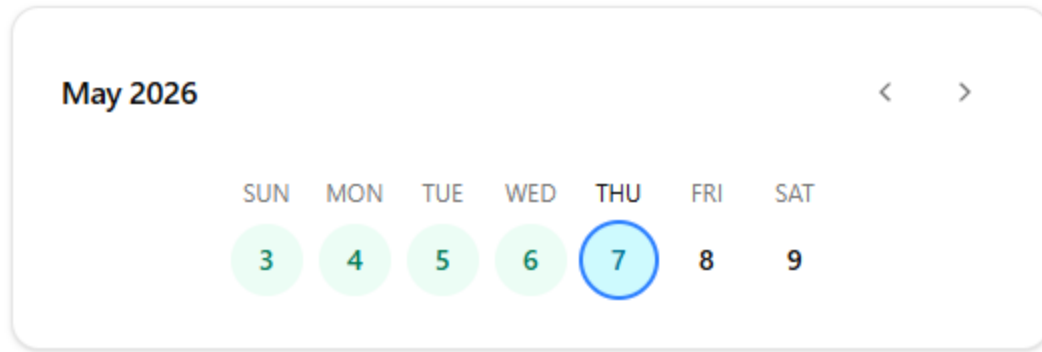

The image shows a 'Daily Check In' form. At the top, it says 'Daily Check In' in bold, followed by 'Use the form below to log your daily check-in information.' Below this, there are four input fields: 'Morning Weight (lbs)' with the value '180', 'Sleep Hours' with the value '9', 'Stress Level' with the value 'Relaxed', and 'Energy Rating' with the value 'Tired'. At the bottom right, there are two buttons: 'Cancel' and 'Check In'.

- 5) Once all fields are completed, click **Check In** to save your daily check-in.

Checking In For a Missed Day

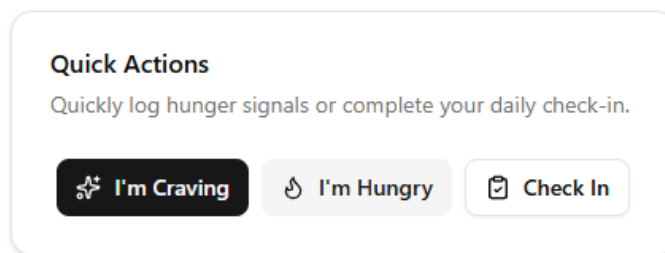

- 1) Navigate to the Daily Log page
- 2) Select the day you missed using the **Day Selector** card.

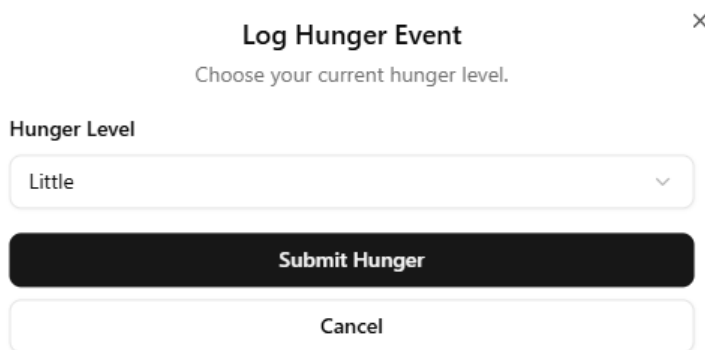

- 3) Follow the instructions provided in the **Checking In** section to complete your daily check-in for that day.

Logging a Hunger Event

- 1) Navigate to the Daily Log page.
- 2) Locate the **Quick Actions** card.

- 3) Click the **I'm Hungry** button.
- 4) Choose your hunger level, then click **Submit Hunger**.

- 5) Review the suggested recipe
 - a) If you would like to use the recipe, click **Accept Recipe**.
 - b) If you would like a different recommendation, click **Request New Recipe**.

Suggested Recipe

braised lentils

Calories: 408

Protein: 21g

Fat: 14g

Sodium: 372mg

Ingredients

- 3 tablespoons extra-virgin olive oil
- 1 cup finely chopped red onion
- 2/3 cup finely chopped carrot
- 1/2 cup finely chopped celery
- 1 1/4 cups dried green lentils
- 4 cups chicken stock or canned low-salt chicken broth

Directions

- Heat oil in heavy medium saucepan over medium-high heat
- Add onion, carrot, and celery and sauté until slightly softened, about 5 minutes
- Add lentils and stir 1 minute
- Add stock and bring to boil
- Reduce heat to medium-low; cover and simmer until lentils are just tender, stirring occasionally, about 35 minutes
- Season with salt and pepper

Request new recipe

Accept Recipe

- 6) Once a recipe is accepted, the hunger event will appear in the **Hunger Events** card.

Logging a Craving Event

- 1) Navigate to the Daily Log page.
- 2) Locate the **Quick Actions** card.

Quick Actions

Quickly log hunger signals or complete your daily check-in.

I'm Craving

I'm Hungry

Check In

- 3) Click the **I'm Craving** button.
- 4) Describe your craving in the text field using a sentence or short description.

In-app reminders

Turn this off to stop the daily check-in and meal log reminders.

If you selected "Do it later" on the daily check-in reminder, the prompt is suppressed for one day. You may reset that state here.

Reset today's reminder

Disable reminders

3) Toggle the **In-app reminders** button
